MEGAPAY

by INTELLIGO

AXA Insurance Limited uses Intelligo's leading corporate payroll software, MegaPay and Employee Self Service module to manage their payroll function for over 750 staff across 42 branches in Ireland.

Background

AXA is one of the largest and oldest general Insurance companies in Ireland. They specialise in providing motor, household, commercial and commercial non-motor insurance.

Their Headquarters are located in Dublin and they have an extensive network of 42 branches around Ireland employing over 750 staff.

Working with Intelligo

According to Shane Corr, Payroll Administrator for AXA, "We have been using MegaPay, Intelligo's corporate payroll software in-house at AXA's Head Office for the past 20 years. MegaPay is very user friendly in terms of processing data from start to finish and extracting reports as required.

The service we receive from Intelligo is also excellent; they have a highly experienced team of consultants who provide support by phone, web, email and onsite visits when required."

Meeting AXA's Payroll Needs

"We extract comprehensive reports from MegaPay, from balancing the payroll, interfacing with financials (SAP) to analysing data for our Expense Team. We also produce ad-hoc reports for various internal departments which are really useful to highlight overtime, bonus trends, cost centre changes, etc."

Shane added, "Due to the volume of staff in AXA, it is really important for us to import masterfile and timesheet data such as staff policies, salary changes, bonuses, etc. MegaPay is tailored and customised to meet these requirements."

"In addition, we rolled out the Employee Self Service module to all staff in 2010. The feedback was excellent, in particular the current and historical payslips that the module holds and the fact that P60s can be viewed and printed.

There are also re-occurring time savings both for payroll staff and AXA, in that payslips do not need to be printed, distributed and stationery & postage costs are substantially reduced."

MegaPay Key Features

According to Shane, the key features of MegaPay are as follows;

- **Updates:** Intelligo is highly efficient in providing budgetary updates and ad-hoc patches; particularly at year end, as AXA always has an early fortnightly payroll to run in January.
- **Payslips:** We have over 500 Pensioners and 40% receive payslips by email. This facility is proving to be very cost effective for AXA. Intelligo's payslips are also very detailed which we find reduces questions to the Payroll Dept.
- **Support:** The live support facility is really useful and quick for answering customised queries relating to AXA.

“Intelligo is highly efficient in providing budgetary updates and ad-hoc patches, particularly at year end. The service we receive from Intelligo is also excellent; they have a highly experienced team of consultants who provide support by phone, web, email and onsite visits when required.”
