BT Ireland Ltd (BTI) chose Intelligo's Managed Payroll Service, MegaPay Outsourced, to manage their payroll for over 600 employees across 5 sites.

Background

BTI is a leading provider of IT services to government departments and major businesses, employing over 600 staff across 5 different sites. It is also a leader in the provision of wholesale network services, working with key customers such as 3, for whom they build their 3G network. BTI continues to invest in network infrastructure.

Why Intelligo?

According to Colm McCluskey, Senior Finance Manager for BTI Ireland - "We chose Intelligo's fully managed payroll service, MegaPay Outsourced, over the other providers, as Intelligo committed to working with us to provide a tailored service that met our specific requirement and also committed to be a genuine partner with us going forward."

Outsourcing Process

"The original outsourcing project was back in 2007. We had a number of meetings/workshops to get the project off the ground, these were seamless and quick and before long MegaPay Outsourced superseded what we had in place previously.

Intelligo worked with us from the start to design efficient processes and provided valuable support on the way of shaping and maintaining the payroll outsourcing process."

Benefits of MegaPay Outsourced

- Always open to discussion about any new changes or requirements we have.
- Took ownership of our expense process with a superior review system.
- Fantastic value for money with no requirement for in-house payroll staff.
- Produces bespoke reports when we require insight into particular parts of payroll.
- Deals with ad hoc requirements like bonuses/share exercises seamlessly and accurately.

Colm concluded, "the key features of MegaPay Outsourced are -
