in action

Businesses today need to be agile, efficient and their people need to be highly engaged. Your HR and Payroll software can be a standalone tool or it can be a connected framework that supports strategic alignment and operational excellence, enabling you to deliver a superior People Experience with limitless scale and flexibility.

“Having an application that’s agile and easy to use is huge for us. We’ve seen 25% time savings on inputting and checking payroll, a 50% increase in processing payroll jobs and GLs are ready in 10 minutes.”

Industry: Transport | Employees: 3,500+

Transparent, Compliant and Efficient Payroll

Complexity increases risk. Payroll isn't easy, but it can be simple.

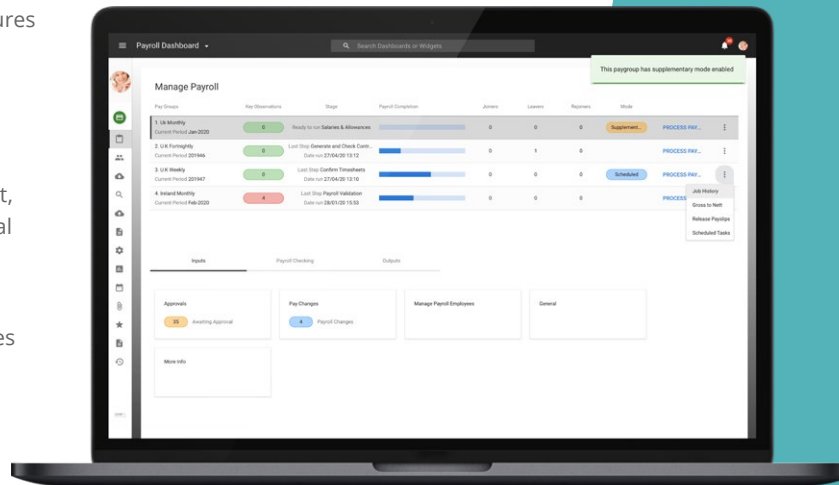

Payroll is a business-critical operation for every organisation and is likely your company's largest expense. It means time-consuming administration work, complex data sharing across the business and it touches every single employee.

If the Payroll team are to consistently deliver on the payroll promise, that is to pay on time and in full, they need to have visibility and control over data, efficient processes and a solution that ensures compliance with local legislation.

Failure to deliver on the payroll promise impacts not only organisational productivity, it can also reduce employee engagement, impacting an individual's emotional and financial wellbeing.

Payroll from Access People is a secure, SaaS solution that enables you to future-proof your payroll.

Lead your payroll team with clarity and elevate Payroll to a key strategic function by leveraging accurate data and a touchpoint with every employee. In this role, Payroll teams can support operational excellence and a leading people experience so your organisation can be at all times agile and capable of scalable growth.

Future-Proof your Payroll

Payroll Admin Made Easy

The Payroll Dashboard is one place to set up, input, process, report, check, balance and audit your payroll. You can easily manage and analyse all pay groups, see live updates on payroll readiness and proactively resolve errors identified by system prompts.

Devolve Data Input, Retain Control

Empower data owners across the business, from People Management to Workforce Management, with an input process that promotes accountability, accuracy and timely data input. Retain control with efficient data auditing views, validate reports and control inbound and outbound payment requests.

Peace of mind with Compliant Payroll

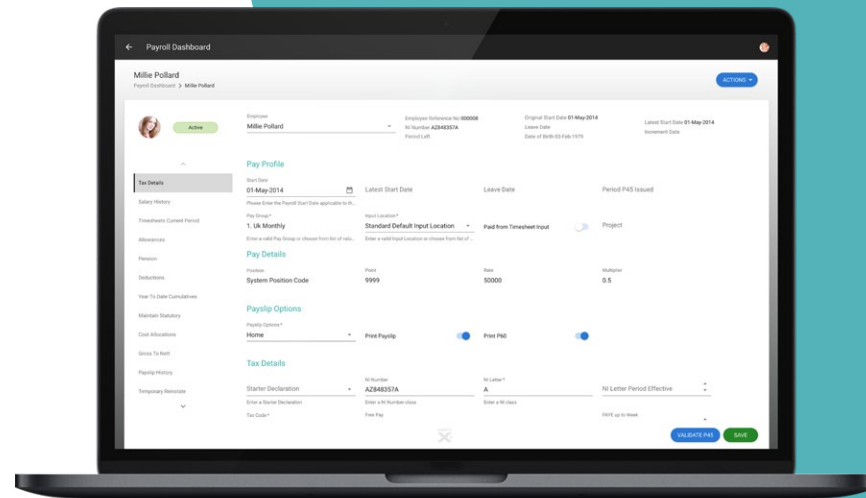

Our Payroll solution and inhouse legislative experts support you to ensure compliance with the evolving landscape of local legislation and statutory requirements across the UK and Republic of Ireland.

Take Control of Payroll Costs

Leveraging our powerful and robust solution enables Payroll Managers to understand the real cost of running payroll now and in the future.

“We are saving £40,000 per year on printing costs alone, since moving to online payslips.”

Industry: Transport | Headcount: 3,500
