

# Global payroll gains workforce management features

## Enhanced payroll technology enables valuable workforce insights

With Global Managed Payroll, multinational companies count on our local expertise to pay employees compliantly and accurately. Now, with our Global Unity platform, companies can also benefit from full payroll data visibility, time and attendance tracking, and a portal for managing HR requests.

**Make strategic decisions**  
with a consolidated view  
of your global workforce

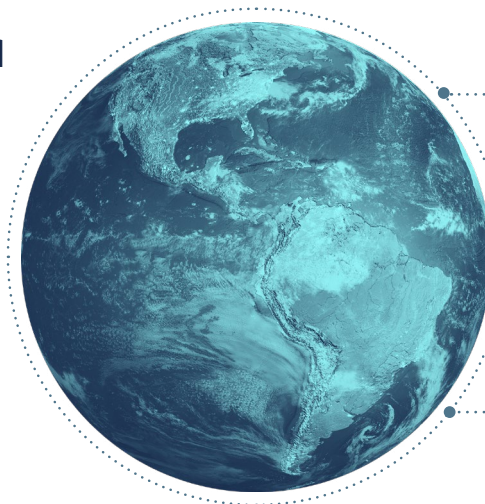

**Respond faster**  
to employee needs  
and requests

**Gain confidence**  
that payroll is accurate,  
timely and compliant

## Payroll dashboard

### Total control over payroll data and workflow

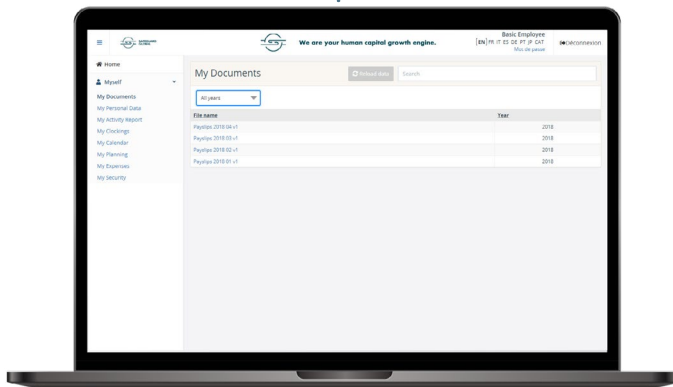

- Make smarter workforce decisions with consolidated payroll data
- Improve payroll timeliness and visibility
- Reduce employee complaints and requests to HR
- Save time on managing employee data

## Self-service HR portal

### Anytime access to employee data

- Gain peace of mind that employee documents are secure and stored compliantly
- Build trust with transparent, self-service access to information
- Improve accuracy of HR data reporting

## Time and attendance

### Seamless experience from clock-in to payday

- Improve payroll accuracy
- Ensure compliance with EU time legislation
- Speed up clock-in and clock-out process
- Eliminate the need for costly time-clock equipment
